

## Empowering Law Enforcement Coordinators

Law enforcement coordinators are the backbone of efficient agency operations, serving as the critical connection between off-duty law enforcement officers and client security requests. Their role ensures that every assignment is executed seamlessly, balancing officer availability with client needs, while maintaining clear communication and logistical oversight.

By partnering with the Protos Off-Duty Services team, coordinators have access to Protos Select, our proprietary application that offers comprehensive shift management for off-duty assignments. The app simplifies the task of filling available off-duty posts by effectively linking agencies and off-duty law enforcement personnel to these shifts. Our Off-Duty Services team works closely with clients throughout the U.S. and Canada, handling security coverage requests and publishing available off-duty jobs for coordinators to manage.

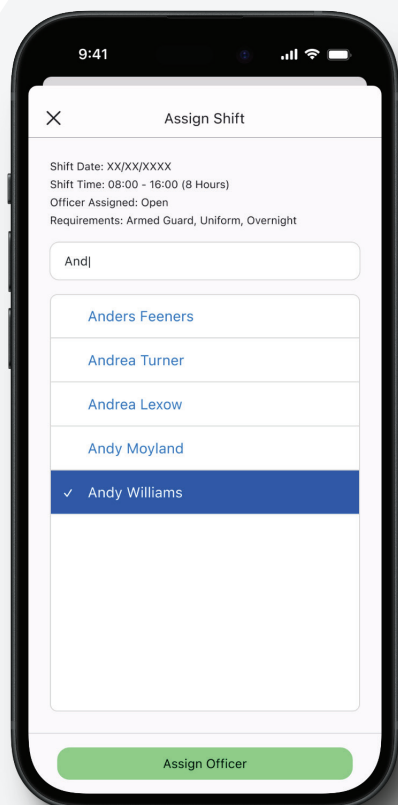

### ▶ PROTOS SELECT OPTIMIZES COORDINATOR RESPONSIBILITIES

- **Centralized Job Management:** View all job requests by location and client name in a single interface, ensuring that all shifts are filled.
- **Direct Shift Assignments:** Assign shifts directly to officers or allow them to request shifts on a first-come, first-served basis, providing flexibility in staffing management.
- **Real-Time Updates:** Receive instant notifications regarding job requests, allowing coordinators to promptly handle shift coverage, cancellations and reassignments.
- **Detailed Job Information:** Access comprehensive job details, including location, equipment requirements and hourly rates, facilitating informed decision-making.

“Officers love the Protos Select app because it not only streamlines their ability to pick up shifts from their smartphones, but also ensures they get paid faster. For coordinators and agencies, the app offers an enhanced system for tracking officer hours, providing a clear, accurate view of total hours worked during off-duty time.”

– LT. David Pauly of Gwinnett PD, Gwinnett, GA

### ▶ WHAT'S IN IT FOR YOU?

- **Enhanced Efficiency:** Streamline administrative tasks associated with managing off-duty assignments, saving time and reducing errors.
- **Improved Communication:** Maintain clear communication with officers regarding job details, schedules and shift changes, fostering a cohesive team environment.
- **Accurate Tracking:** Utilize the app's tracking features to monitor officer hours and job completion, ensuring accurate reporting and accountability.
- **Mobile Access:** Easily manage all aspects of off-duty assignments from your mobile device, increasing flexibility and responsiveness to client needs.
- **Support from Protos:** Benefit from dedicated dispatch support, ensuring coordinators have assistance when managing job requests and officer assignments.

Protos Select is the essential tool for coordinators seeking to enhance their management of off-duty law enforcement assignments, ensuring efficiency, clarity and effective communication throughout the process.
